

**Southern California Intermountain
Repeater Association, Inc.**

www.scirainc.org

Mission Statement

The Southern California Intermountain Repeater Association, SCIRA, Inc. exists to operate and maintain a public access repeater system to provide amateur radio communications coverage for a wide area of Southern California, including but not limited to Los Angeles, Orange, Riverside, and San Bernardino Counties. The Association will sponsor linked repeater system stations located in, but not limited to the San Gabriel and San Bernardino Mountain ranges in Southern California. During times of emergencies, the SCIRA repeater system provides priority communications services to the **Emergency Response Communications (ERC) Network of the Church of Jesus Christ of Latter-day Saints**. Other emergency communications services (e.g. ARES, RACES, etc.) are secondary users.

Join the ERC Net Sundays at 9:00 pm on our linked repeater system.

President ~ Stephen Lang, KI6WKG
Vice President ~ Tom Thomas, WB6TT
Secretary ~ Clint E. Hunger, KM6KHT
Treasurer ~ Marcus Piquet, KM6KLT
Membership ~ Curtis Chubbuck, KJ6ZEY
Web ~ Carol Bruegge, KE6SRN

Youth Involvement:

SCIRA, Inc. has the expressed objective of providing support for the development of Amateur Radio among high-school age (or younger) youth. SCIRA will seek funding to support the young hams with projects such as securing equipment for antennas for a club station, purchasing training

materials, and supporting local service projects that bring public exposure to emergency communications, and similar activities.
